The Asian Awards 2017

CORNUCOPIA
EVENTS

The Asian Awards were born out of a simple vision; to create an event which would honour only the very highest levels of achievement from within the worldwide Asian community; to create one of the most important events of its kind ever to be staged. A pioneering, unique and prestigious event, The Asian Awards is the only event that pays tribute to Asian success across all walks of life; emphasising inspiring achievements and highlighting inspirational role models in the fields of business, sport, entertainment, philanthropy and popular arts and culture.

Although in the first 2 years, the Asian Awards primary geographical focus was South Asia, it was always the intention to define the term “Asian” as one, which encompasses all Asian countries, i.e. both South Asia and Far Eastern Asia. As a result at the 3rd Asian Awards in 2013, we honoured excellence from ALL Asian countries, over 25 in total.

The move was incredibly well received with global Asian icons such as musician Nicole Scherzinger and the legendary Bruce Lee being honoured posthumously. At the 4th Awards we built on the pan-Asian expansion honouring such people as Jackie Chan and Gok Wan. At the 5th awards we broke all records on social media for a non-western event. #TheAsianAwards trended at NUMBER 1 worldwide for over 3 hours creating over 4billion impressions. With the 6th awards happening last year, we now move onto the 7th annual Asian Awards on Friday 5th May 2017.
